Professional Summary

Passionate Full Stack Developer with 2.8+ years of experience in building scalable web and mobile applications using React.js, React Native, Node.js, Express.js, and MySQL. Currently working as a Web Developer at Maastrix Solutions Pvt Ltd, delivering high-performance digital solutions with strong UI/UX and efficient backend functionality.

Experienced in developing enterprise-level platforms such as Land Information Management System (LIMS), ClaimScope CMS Panel, and Adjuster Assist mobile application. Skilled in frontend development, backend integration, API handling, CMS development, and responsive design with a focus on clean architecture and user-centric solutions.

Experience

Maastrix Solutions Pvt Ltd — Web Developer Oct 2025– Present

- Working on enterprise web and mobile applications using React.js, React Native, Node.js, Express.js, and MySQL.
- Developing and maintaining the Land Information Management System (LIMS) admin dashboard for land workflow management and backend integrations.
- Building and managing ClaimScope Consulting website, Admin Dashboard, and CMS Panel with structured content management.
- Contributing to Adjuster Assist, a mobile application for email drafting, file-based generation, and claim workflow automation.
- Handling frontend architecture, backend API integrations, reusable components, and UI optimization.

Mentroz Pvt Ltd — Software Developer Oct 2024 – Sep 2025

- Developed a full-featured mentorship platform using React Native for students exploring academic and career pathways.
- Enabled push notifications using Firebase Cloud Messaging (FCM) for mentor responses and session reminders.
- Integrated secure payment gateway for subscriptions and premium features.

EZTruck Logistics Pvt Ltd — Software Developer Sep 2023 – Aug 2024

- Developed logistics management mobile application using React Native.
- Implemented real-time vehicle tracking, order management, push notifications, and authentication systems.
- Improved delivery operations and user experience for customers and internal teams.

Flaplive Innovation Pvt. Ltd — Frontend Developer Jun 2022 –Aug 2023

- Converted Figma designs into React.js components using Material UI.
- Designed responsive interfaces for desktop, mobile, and tablet devices.
- Worked extensively with HTML5, CSS3, JavaScript, and React.js.

Technical Skills

- React.js, React Native, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI (MUI), Redux
- Backend
- Node.js, Express.js, REST APIs, MySQL, MongoDB
- Git, GitHub, Jira, Firebase, Razorpay, Expo, React Native CLI, Axios

Projects

1 Land Information Management System (LIMS)

Tech Stack: React.js, Tailwind CSS, Node.js, MySQL

- Developed an admin dashboard for land workflow management including Government Land, Private Land, and Forest Land modules.
- Built frontend workflows and backend integrations for land status tracking, approvals, and document management.
- Worked on dynamic dashboard reporting based on land type and stage-based workflow management.

2 ClaimScope Consulting Website + CMS Panel

Tech Stack: React.js, Tailwind CSS, CMS Panel

- Developed the company website, Admin Dashboard, and CMS management system for structured content control.
- Built reusable content components, legal pages, policy pages, and case study modules.
- Improved content consistency, design system structure, and responsive layouts.

3 Adjuster Assist Mobile Application

Tech Stack: React Native, Node.js

- Built a mobile application for drafting emails, file-based generation, and intelligent claim workflow handling.
- Implemented enterprise-grade frontend workflow with persistent claim workspace and AI-assisted navigation.

4 Mentroz Admin Dashboard

Tech Stack: React.js, Redux, Axios, Tailwind CSS, REST APIs

- Built admin dashboard for managing quizzes, subscriptions, students, and video assessments.
- Integrated CRUD operations and assessment unlocking based on user activity.

5 RoadTyre

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed transportation management platform with booking, accounting, invoice generation, and order tracking.
- Created dashboards for customers and company owners with responsive design.

6 OFFBG

Tech Stack: React.js, Next.js, MongoDB, Bootstrap

- Built background remover platform for image and video background editing.
- Developed payment integration, dashboard management, and batch editing workflows.
-

Education

Master of Computer Applications (MCA)

Ravenshaw University, Odisha

2018 – 2021

CGPA: 6.8
